37 CFR Part 10

[Docket No. 81146-8246]

Exhaustion of Administrative Remedies in Patent and Trademark Office Disciplinary Proceedings

Agency: Patent and Trademark Office, Commerce
Action: Notice of Proposed Rulemaking
Summary: This notice of proposed rulemaking sets forth proposed amendments to 37 CFR 10.155 and 10.157. The purpose of the amendments is to clarify that a respondent dissatisfied with the initial decision by the administrative law judge in a Patent and Trademark Office (PTO) disciplinary proceeding must exhaust available administrative remedies, i. e., appeal to the Commissioner of Patents and Trademarks, before seeking judicial review under 35 U.S.C. §32. Interested parties are invited to comment on the proposed amendments.
Dates: Written comments must be received on or before Feb. 27, 1989 to ensure consideration. No oral hearing will be conducted.
Address: Address written comments to Box 8, Commissioner of Patents and Trademarks, Washington, D.C. 20231, marked to the attention of Harris A. Pitlick.
For Further Information Contact: Harris A. Pitlick by telephone at (703) 557-4035 or by mail marked to his attention and addressed to Box 8, Commissioner of Patents and Trademarks, Washington, D.C. 20231
Supplementary Information: It is possible that present rules may be interpreted not to explicitly require a respondent dissatisfied with the desicion of the administrative law judge (initial decision) in a PTO disciplinary proceeding to file an appeal with the Commissioner of Patents and Trademarks as a condition precedent to filing a petition for review in the United States District Court for the District of Columbia under 35 U.S.C. §32.

Under present 37 CFR 10.154(a), in the absence of an appeal to the Commissioner, the initial decision will, without further proceedings, become the decision of the Commissioner thirty (30) days therefrom. Under 35 U.S.C. §32, Local Rule 213 of the United States District Court for the District of Columbia and present 37 CFR 10.157, review of the final decision of the Commissioner may be obtained by filing a petition in that court within 30 days of the date of final agency action. Thus, as presently constituted, the rules could be construed to permit a respondent dissatisfied with the initial decision to bypass review by the Commissioner and directly seek judicial review within 60 days of the date of the initial decision.

The purpose of 37 CFR 10.154-10.157 is to outline the steps for seeking review of an initial decision in a disciplinary proceeding. There is no provision for bypassing a determination by the Commissioner unless both parties accept the decision and do not desire any further review of the initial decision. 37 CFR 10.155 amd 10.157 are propsed to be amended to clarify that a respondent must exhaust available administrative remedies by appeal to the Commissioner before judicial review can be considered ripe.

Section 10.155 is proposed to be amended by adding a new paragraph (d), which provides that absent an appeal by the Director, failure by the respondent to appeal under the provisions of this section shall be deemed to be both an acceptance of the initial decision and a waiver of the right to further administrative or judicial review.

Section 10.157 is proposed to be amended by making paragraph (a) thereof subject to paragraph (d) of 37 CFR 10.155.

Other Considerations: The proposed rule change is in conformity with the requirements of the Regulatory Flexibility Act (Pub. L. 96-354), Executive Orders 12291 and 12612 and the Paperwork Reduction Act of 1980, 44 U.S.C. §3501 *et seq.*

The General Counsel has certified to the Chief Counsel for Advocacy, Small Business Administration that this proposed rule change is not expected to have a significant adverse economic impact on a substantial number of small entities (Regulatory Flexibility Act, Pub. L. 96-354).

The Patent and Trademark Office has determined that this proposed rule change is not a major rule under Executive Order 12291. The annual effect on the economy will be less than $100 million. There will be no major increases in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions. There will be no adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States based enterprises to compete with foreign-based enterprises in domestic or export markets.

The Patent and Trademark Office has also determined that this notice has no federalism implications affecting the relationship between the national govenment and the States as outlined in Executive Order 12612.

This proposed rule change does not contain a collection of information subject to the Paperwork Reduction Act of 1980, 44 U.S.C. §3501 *et seq.*

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries (PDLs), receive current issues of U.S. Patents and maintain collections of earlier-issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections, which are organized in patent number sequence, are available for use by the public free of charge. Each of the PDLs, in addition, offers supplemental reference publications of the U.S. Patent Classification System, including the *Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions,* and provides technical staff assistance in their use to aid the public, in gaining effective access to information contained in patents. CASSIS (Classification And Search Support Information System), which provides direct, on-line access to Patent and Trademark Office data, is available at all PDLs. Facilities for making paper copies of patents from either microfilm or paper collections are generally provided for a fee.

Since there are variations in the scope of patent collec patents from either microfilm or paper collections are generallcontemplating use of the patents at a particular library is advised to contact that library, in advance, about its collection and hours in order to avert possible inconvenience.

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
